

2012 Volkswagen Professional Navigation Maps DVD for North America RNS510 V5M

2012 VW Navigation System for North America RNS510 V5M DVD + Roadmaps DVD

2012 VW New, Improved Navigation Roadmap in North America RNS 510 V5M, contains an updated database of this region, and can in shortest time determine exact route to the address configured.

These navigation maps contain full details of the United States, Canada, Mexico, Alaska, Hawaii, Puerto Rico. Details contains the latest information on new streets, new road routes, new buildings, new situations on the roads and thousands of points of interest.

Travel for pleasure. The navigation system helps you quickly navigate in an unfamiliar city, if you want to drink a cup of

coffee, or need to fill the car – it's not a problem. The database includes a complete list of addresses, a lot of points of interest. You will not have to look through the city or ask people where the nearest autorefuelling, hotel or restaurant, you can do it without leaving the car. The system will help you choose the best option from the nearest addresses.

This new map update contains coverage across the continental United States, Canada and Mexico (Alaska, Hawaii and Puerto Rico are also included). It contains over 6.4 million miles of updated roads and features over 2 million updated points of interest.

The system serves to:
